

**Curriculum vitae**  
**Prof. Giuseppe Reimondo**

**Personal details**

Born in Turin  
Nationality: Italian  
Email: giuseppe.reimondo@unito.it  
Website:  
ORCID ID: 0000-0001-9489-2094 Scopus ID: 6701516556 Researcher ID: I-9156-2018

**Educations**

October, 21<sup>st</sup> 1993: Degree in Medicine at the University of Turin.  
Number of board certification 17114 obtained on 25 January 1994  
November 8<sup>th</sup> 2000: Postgraduate degree in Endocrinology at the University of Turin.  
February 27<sup>th</sup> 2012: Doctorate degree in Experimental and Therapy Medicine at the University of Turin.

**Professional experiences and current position**

Since 2001, he spends his activity in outpatient clinic of pituitary and adrenal disease at the University Division of Internal Medicine, San Luigi Gonzaga Hospital of Orbassano (Turin).  
Since 2002 to 2003 he had a research grant for the research project entitled: "Physiopathology of adrenal tumors" at the Department of Clinical and Biological Sciences, University of Turin.  
Since 2003 to 2005 he had a research grant for the research project entitled: "Role of GH-IGF system on neoplastic development in patients with pituitary adenoma" at the Department of Clinical and Biological Sciences, University of Turin.  
Since 2005 to 2006 he had a research grant for the research project entitled: "Evaluation of cure criteria in patients with acromegaly during medical treatment with somatostatin analogues" at the Department of Clinical and Biological Sciences, University of Turin.  
Since 2006 to 2008 he has a research grant for the research project entitled: "Evaluation of morbidity associated to subclinical Cushing's syndrome and analysis of possible genotype-phenotype correlations" at the Department of Clinical and Biological Sciences, University of Turin.  
Since 2008 to 2009 he has a research grant for the research project entitled:  
"Study of clinical and basic aspects of the mitotane therapy in patients with adrenocortical carcinoma" at the Department of Clinical and Biological Sciences, University of Turin.  
Since 2009 to 2011 he has a research grant for the research project entitled: "Evaluation of morbidity associated to subclinical Cushing's syndrome and analysis of possible genotype-phenotype correlations" at the Department of Clinical and Biological Sciences, University of Turin.  
Since March 31<sup>st</sup> 2011 to December 27<sup>th</sup> 2021, he has been Researcher of Internal Medicine at the Department of Clinical and Biological Sciences, University of Turin, San Luigi Gonzaga Hospital of Orbassano (Turin).  
Since June 1<sup>st</sup> 2011, he is Assistant Physician at the Division of Internal Medicine, San Luigi Gonzaga Hospital of Orbassano (Turin).  
Since December 28<sup>th</sup> 2021, he is Associate Professor of Internal Medicine at the Department of Clinical and Biological Sciences, University of Turin, San Luigi Gonzaga Hospital of Orbassano (Turin).

**Participation to Directive Boards of Scientific Societies and/or Institutions:**

From 2007 to 2011 he was member of the Commission for the Scientific-Clinical Update Endocrine Oncology area, appointed by the Board of the Italian Society of Endocrinology.  
In 2008 he was appointed by the "Associazione Medici Endocrinologi" member of the editorial panel of the "Position Statement of AME on the Adrenal incidentaloma".  
From November 2010 to November 2014 he served as Treasurer of Association of Medical Endocrinologists  
From November 2014 to November 2018 he served as the National Secretary of the Association of Medical Endocrinologists  
From January 2019 he serves as member of the National Scientific Committee of the Association of Medical Endocrinologists  
From the academic year 2022-2023 he was appointed Vice-Dean of the degree course in Medicine and Surgery, Orbassano, with responsibility for Internships

- Academic Editor of the journal "International Journal of Endocrinology"
- Editorial Board Member of the journal "Journal of Clinical Medicine"
- Associate Editor of the journal "Frontiers in Endocrinology", section "Adrenal Endocrinology"

### **Honors**

1. "The Endocrine Society and Pfizer Inc. International Award for Excellence in Published Clinical Research in The Journal of Clinical Endocrinology & Metabolism in 2002" as co-author of the article: Terzolo M, Pia A, Ali A, Osella G, Reimondo G, Bovio S, Daffara F, Procopio M, Paccotti P, Borretta G, Angeli A. "Adrenal incidentaloma: a new cause of the metabolic syndrome?" J Clin Endocrinol Metab. 2002 Mar; 87 (3): 998-1003
2. Award for the best oral communication from the Association of Medical Endocrinologists (AME), for the research entitled: "Diagnosis of Cushing's Syndrome: the experience of the S. Luigi Hospital in Orbassano". 3rd National Congress AME, Palermo
3. Award for the best poster communication from the Italian Society of Endocrinology, for the research presented at the "XXV Giornate Pisane" entitled: "Effectiveness of midnight serum cortisol as a screening test of Cushing's Syndrome"
4. "The best Posters" award to the work entitled "Mortality in patients with incidentally discovered adrenal adenomas: the experience of San Luigi Hospital" - XX National Congress FADOI Turin, 9-12 May 2015

### **Teaching activity:**

Since 2011 he is Professor in Internal Medicine at the Nursing Degree Course in Cuneo and Orbassano, University of Turin, School of Medicine

In the academic year 2017-2018 he was Professor of the course of Internal Medicine at the Degree in Dentistry of Turin, University of Turin, School of Medicine

From the 2019-2020 academic year he is Professor of the Internal Medicine III year course of the Medicine and Surgery Degree Course in English, University of Turin, School of Medicine

### **Research main topics**

1. The study of particular diagnostic-therapeutic aspects of Cushing's syndrome.
  - a. The systemic effects of hypercortisolism with particular attention to bone metabolism and the cardiovascular system.
  - b. The effectiveness of screening for Cushing's syndrome.
2. The study of the monitoring of replacement therapy in the patient with hypoadrenalism
3. The study of the systemic effects of GH and IGF-I in acromegaly
  - a. The effects of GH / IGF-I hypersecretion on cardiovascular and metabolic risk factors with the identification of predictors of mortality.
  - b. The risk of developing malignancies in acromegalic patients
4. The study of peculiar physiopathological and clinical aspects of adrenal neoplasms
  - a. The characterization of incidentally discovered adrenal masses through the evaluation of clinical, endocrinological and radiological aspects
  - b. The definition of the diagnostic criteria of subclinical Cushing's syndrome, a term that configures a state of mild autonomous hypercortisolism frequently found in patients with adrenal cortex adenoma.
  - c. Identification of the systemic and long-term effects of subclinical hypercortisolism on glucose metabolism, bone turnover, blood pressure.

He is in possession of the following certificate for conducting trials according to GCP:

- ICH GOOD CLINICAL PRACTICE E6 (R2), acquired on 22/3/2022

### **Main projects as PI:**

1. Principal Investigator of the local unit of the protocol "Treatment scheme with high-dose lanreotide in acromegalic patients poorly responsive to treatment with standard doses-Study LAN HD ACRO". EudraCT Code: 2012-005313-39
2. Principal Investigator of the local unit of the protocol " European observational study with LAR pasireotide in acromegaly - ACRONIS study ". CSOM230CIC05"
3. Principal Investigator of the local unit of the protocol "Project CRC 2014/267 - Prospective evaluation of adrenal tumors: epidemiology and clinical consequences"
4. Principal Investigator of the local unit of the protocol "An Open Label, Randomized, Phase 2 Study to Assess the Safety, Tolerability, and Efficacy of IONIS GHR-LRX, an Antisense Inhibitor of the Growth Hormone Receptor, Administered Monthly as Monotherapy in Patients with Acromegaly"

Principal investigator of the national multicenter study "A Multicenter Epidemiological Study on Second Malignancy in Non-Syndromic Pheochromocytoma/Paraganglioma Patients in Italy"

Principal investigator of the ENSAT study “Clinical outcomes of autonomous cortisol secretion in adrenal incidentalomas”

Principal investigator of the ENSAT study “The DEX-AI and CORTEX-AI studies”

**Bibliometry (1993-present)** ([www.scopus.com](http://www.scopus.com))

The research activity has produced 106 papers published on peer reviewed international journals.

Scopus h-Index 36

Citations 5740
